主要目标：

Chemical Industry is a branch of QBPC representing the unique interest of chemical Industry member companies, but also sharing the common interest with other QBPC members in different industries.

Chemical Industry will contribute its effort to provide insight, expertise and intelligence of the chemical Industry to QBPC, and benefit from QBPC's channels, platforms and opportunities to be heard of and advance member companies' legitimate and righteous business interest.

化工行业小组是品保委的一个分支，既代表化工行业小组成员的独特利益，又与品保委其他不同行业的会员企业分享共同利益。

化工行业小组将贡献自己的力量，为品保委提供化工行业的洞察力、专业性和智慧，并受益于品保委的渠道、平台和机会，听取会员企业的意见，推进会员企业合法、正当的商业利益。

Introduction:

介绍：

Chemical Industry is the group under QBPC, which specifically represents and serves

the interests of industrial chemical QBPC member companies. It was founded by 5 QBPC members: Akzo Nobel, BASF, Covestro, Clariant and Evonik in January 2016. Chemical Industry represents the best interest of all group members within and outside QBPC organization.

Chemical Industry listens to group members, studies their concerns and finds ways to address them.

Chemical Industry keeps seeking opportunities to influence the regional, national and local authorities in legislation, decision making, law enforcement and judiciary improvement by rising group members' suggestions, concerns and requests.

Chemical Industry creates platforms of opinion exchange, experience sharing, and reform suggestion by organizing events and seminars to enhance communication, understanding and field practice amongst group members.
